EDITORIAL COMMENT.

Edward L. Rogers, a Chippewa Indian of Walker, Minn., is a Republican candidate for Congress.

Cummins carried Nebraska by a little more than 1,000 votes over Henry Ford in the Republican presidential primary.

Germany will either back down or is hunting trouble with Uncle Sam in order to be in a position to say that it took the whole world to lick her.

President Wilson doesn't propose to waste any time writing notes to Carranza. He has sent Generals Scott and Funston to tell him how it is. They will meet his main man, Obregon, at Juarez today.

Wm. F. McCombs has let it be known that he will not be a candidate for re-election as chairman of the Democratic National Committee to be elected in June. Fred B. Lynch, of Minnesota, is a candidate for the place.

The Williams impeachment farce at Frankfort was a disgrace to the Senate, that ran up a bill of \$12,000 to whitewash a politician who could have been tried in the local court for alleged misconduct in a \$1,000 office. They held on three weeks before public opinion finally forced them to do what could have been done in three days.

ATTORNEY HARRY STOKES

Bloodshed Grows Out of The
Upheaval In Tennessee
Capital.

Nashville, Tenn., April 26.—Harry Stokes, one of the most prominent attorneys in Nashville, was shot and killed this morning by Charles Trabue. Mr. Stokes was the prosecutor in chief in the municipal upheaval that changed the city government last year, ousting Mayor Howse and several commissioners.

The killing is one of the most sensational tragedies that has occurred since E. W. Carrack was killed by Cooper, several years ago.

\$15,000 DAMAGES IS SUM ASKED

In Suit Filed Here Yesterday
by Administrator of
Dead Man.

Henry Dillard, col., administrator of James Dillard, col., deceased, on yesterday, through his attorneys, Brethitt, Allensworth & Brethitt, filed suit against the L. & N. railroad company for \$15,000 damages. The petition states that James Dillard, who was a resident of Christian county, was employed in the company's yards at Covington, Ky., and that on April 3, while removing some electric wires which were broken and had fallen, he came in contact with a heavily charged wire, which caused his death. It is further alleged that Dillard was working under orders from the night round-house foreman and that his death was due to the carelessness and negligence of the railroad company's employees and agents.

SPEECHES AT THE AVALON

Geo. E. Gary Will Deliver
The Address Of Wel-
come.

The state meeting of the T. P. A. will convene here tomorrow morning at the Avalon.

The delegation from Louisville, numbering 80, according to the Times, will not leave Louisville until noon Friday, arriving here that night at 7 o'clock. The principal business will be transacted Friday, Saturday being given to pleasure.

The address of welcome will be made by Geo. E. Gary. Paul Winn, president of the Kentucky division, T. P. A., will respond. Entertainment during the convention here will consist of a theater party Friday night, a trip to Lake Tandy, a barbecue dinner at the club house of the Hopkinsville Hunting and Fishing Club and a motor trip the following day.

The visitors will find the city greatly decorated in white and blue and the citizens prepared to give a cordial welcome.

ORATORY AND MUSIC

With Plenty To Eat At Odd
Fellows Anniversary
Monday Night.

The 47th anniversary of the Odd Fellows Lodge was observed Monday night and proved to be a delightful affair.

The opening prayer was by Rev. W. R. Goodman. The program of speakers included the following orators:

"Our Greatest Accomplishment," Lucian H. Davis.
"History of Odd Fellowship," Rev. W. R. Goodman.
"Fraternal Work and Benefits," L. E. Adwell.
"That Reminds Me," Alvan H. Clark.

A male quartet composed of Lyman and Emmett Hayden, Charles Shanklin and Oscar Wright sang two numbers to the great pleasure of the crowd. Following the program delicious refreshments were served.

WHITE SQUIREL.

A snow white squirrel, the first one ever known to be caught in the wild state in this region, is owned by Thomas Kimbrough colored, near Fairview. Kimbrough caught the squirrel in January when it was a tiny little thing. It is now about two-thirds grown. It is a female and is pure white, even to its bushy tail, and has pink eyes and skin. In fact it is a true albino. The squirrel is very tame and wears a leather collar to which is attached a short chain.

REDS GOT BIG LEAD.

The "Reds and Blues" at the Christian Church Sunday turned the Men's Bible Class into a mass meeting, so great was the influx of new members. There were 43 new members and about 265 in the class, the Reds leading by 2,000 points. The campaign closes in two more Sundays.

VIGOROUS KICKS MADE

By Citizens Who Object To
The Payment of Occupa-
tion Licenses.

Many citizens appeared before the commissioners at Tuesday's meeting, most of them to protest against proposed license on occupations not heretofore taxed. The doctors protest against a \$10 license, the automobile owners against a \$5 license and the lawyers against one of \$10. All were taken off, also a license on wagons not used for hire, such as delivery wagons and other such vehicles.

An addition was made to the bill in levying a license of \$10 a day or \$200 a year on non-residents solicitors for the sale of stocks, bonds or other securities, or of lands located out of the county. All of the present liquor houses renewed their licenses from May 1. There are 21 saloons and two wholesale houses. The new license is \$10 a year.

The question of public sanitation was discussed. Mayor Yost, who is at the head of this department, urging that a new sanitary ordinance be passed with a compulsory fee to be paid to the sanitary officer. Nothing was done at that meeting.

MARRIED HERE.

Robert C. Coe, of this city, and Miss Elizabeth Campbell, of Una, Tenn., were married last Saturday, the ceremony taking place at Hopkinsville. Mr. Coe is a member of the firm of Simon & Coe, who operate a garage in the McLeod building on West Center street.—Madisonville Hustler.

Permanent Street Proposition
Has Created a Vigorous
Protest.

GREAT BURDEN THIS YEAR

Citizens Will Ask That the
Improvement Be Deferred
Until Times Are Easier.

The proposition to construct permanent streets on four of the principal streets of the city, made in a resolution passed by the Commissioners a week ago, has caused much discussion and the people are preparing to make almost a universal protest.

The streets affected are South Main, South Virginia, East Seventh and East Ninth. The estimated cost is \$250 a square yard for brick and ranging down to \$1.50 for bitulithic. The streets to be made of asphalt, wooden blocks or vitrified brick. The amount on South Main would be something over 10,000 yards and still more on Virginia. The four streets would be about 40,000 to 50,000 yards, making the cost run around \$100,000 or about \$10,000 a year for ten years, with interest on deferred payments. It would be about \$4 a front foot, both sides, on streets as wide as South Main.

The Commissioners will give further consideration to the resolution at a meeting to be held the middle of May.

TO HANG BANDITS

Villa Followers Condemned
to Die May 19 by
Judge.

Deming, N. M., April 26.—The seven Villa followers who were captured after the raid on Columbus and convicted of murder in the first degree were condemned to die May 19, by Judge Edward L. Medler.

The prisoners pleaded that they were ignorant of where they were going at the time of the raid, and that they were forced to follow Villa, under penalty of death.

Six of the bandits listened unmoved to the sentence of death, but the seventh, Jose Rangel, who had been wounded in the raid, and was carried into court on a cot, cried for mercy.

Judge Medler ordered the prisoners to the Santa Fe penitentiary for safe keeping.

IMPEACHMENT CHARGES FAIL

Judge Williams, of McCreary
County, is Acquitted by
the Senate.

LACKED BUT ONE VOTE

Expenses of Hearing May To-
tal \$12,000—Suit For
Cost Probable.

Frankfort, Ky., April 26.—The Kentucky Senate Monday afternoon failed to impeach County Judge J. E. Williams, of McCreary county, and he goes acquitted of the charges preferred against him by the House.

The Senate came within one vote of finding him guilty on the second article, charging that he issued a warrant and caused the arrest and imprisonment without an affidavit of J. A. Geary, R. C. Sievers, Democratic county campaign chairman; C. E. Cain, J. C. Roberts, W. S. Gilreath, Democratic county election commissioner, and W. F. Hinkle, who were on guard about the County Clerk's office, where the ballots were kept the Friday night following the last November election.

On that charge twenty-three Senators voted to find him guilty and twelve not guilty. The nearest they came to impeachment after that was on Article 13, charging him with collecting the fine of Ed Hodge and failing to report it to the Circuit Court; Articles 18 and 20, charging him with selecting jurors to be summoned to try cases for the purpose of favoring one side in the cases. The vote on these articles stood 21 to 14. Articles 5, 6, 7, 8, 9, 10 and 19 were dismissed unanimously, and on the other articles the vote varied, sometimes a majority being one way and sometimes the other.

On Articles 3 and 4, charging Williams with suspending fines, Senator Ford voted alone for impeachment.

The vote came rather unexpected shortly before 6 o'clock. The Senate had been in executive session, discussing the charges, but the vote was taken with open doors.

The Senate has been in session since April 10, and it is estimated that the total cost of the trial will be close to \$12,000.

Under the statute, throwing the defendant's costs on the petitioners, suits probably will be brought against John A. Geary, Dr. R. C. Sievers, Dr. C. E. Cain, P. M. Stephens, J. C. Roberts, W. F. Hinkle, J. R. Bruce and Logan Bryant in behalf of Judge Williams, his attorneys said.

French Front Quiet Except in
Lorraine And Around
Verdun.

RUSSIANS ARE IN FRANCE

Heavy Cannonade Continues
In Sectors Near
Hill 304.

London, April 26.—Except in Lorraine there has been an entire absence of infantry fighting on the Western front. The big guns however have continued their rain of shells on opposing positions at various points. At La Chapelotte in Lorraine, the Germans launched a heavy infantry attack against the French, which was repulsed. Some of the Germans obtained a footing in a portion of the French salient but later were driven out with heavy losses.

Around Hill 304 and in the region of Esnes and Cumieres, northwest of Verdun, the bombardment continues intense. In the Argonne the French have destroyed with their guns a German post and shattered a German trench over a small front. Considerable aerial activity by the French airmen in which four German machines were brought down is reported by Paris.

On the Eastern front near Garbunovka the Russians made a heavy attack against the Germans, but according to Berlin, were repulsed with sanguinary losses. Heavy artillery engagements are still in progress in the upper Cordevole and Monte San Michele zones of the Austro-Italian front.

The British official communication from Mesopotamia says the British are still holding their lines on the right bank of the Tigris against the Turks and have somewhat extended them at one point by driving in the Turkish pickets.

GIVEN NOISY WELCOME

Marseilles, April 26.—Marseilles was again the center of tremendous enthusiasm Tuesday as another contingent of Russian troops arrived unexpectedly. The word that more Russian troops were coming soon spread and great crowds gathered at the quay to witness their disembarkation.

It was a stirring scene as the Russians lined the decks of the transports and returned the cheers from the crowds massed along the shore while the flotilla of warships and merchantmen in the harbor saluted with flags and salvos booming cannon. A regiment of French Hussars was drawn up along the quay as a guard of honor, the French bands playing the Russian national hymn, to which the Russian bands responded with the "Marseillaise."

The new troops are composed of young men of excellent appearance and sturdy bearing, similar to those in the previous detachments.

AERIAL ACTIVITY

A squadron of German aeroplanes has delivered another attack on the entrenched camp of the entente allies at Saloniki, according to a Havas dispatch from Saloniki to-day, the airmen flying over the camp from all directions and dropping bombs at various points.

Little damage was done by the raiders, according to the dispatch. Aside from this aerial activity there was calm along the front.

Eight British aeroplanes bombarded the hostile camp at Quatia in Egypt, near the Suez canal, it was announced officially to-day. The camp was destroyed and the hostile troops, the aviators reported, apparently began to withdraw from that district.

Some Monstrous Names.

The longest name ever inflicted on an English child must surely be that of an unfortunate born at Derby in 1882, on whom her parents bestowed a name for every letter of the alphabet, says the London Chronicle: Anna Bertha Cecilia Diana Emily Fanny Gertrude Hypatia Inez Jane Kate Louise Maude Nora—I will cease the infliction until it comes to Zenobia! The Rev. Ralph Lyonel Tollemache Tollemache was another person with a craze for long names. He baptized his eldest son Lyulph Yderallo Odin Nestor Egbert Lyonel Toedmag Hugh Erehenwyse Saxon Esa Orme Cromwell Nevil Dysart Plantagenet.

Popular Japanese Game.

One of the most popular games among Japanese children is otodama, played with small cloth bags filled with red beans. The number of bags used is seven or ten. The game consists in throwing the bags into the air, one after another in quick succession, trying to catch them before they reach the ground. The idea is to keep all the bags in motion.

BIBLES FOR WAR PRISONERS

Great Britain Sends Tons of Testaments, Gospels, Etc., to Practically Every Center.

Eleven tons of Testaments, gospels, portions and copies of the Psalms have just been dispatched from Great Britain by the British and Foreign Bible society for the prisoners of war in Russia.

"There were 54 cases, containing over 260,000 volumes," the secretary of the society told a London Daily Chronicle representative, "and the cost of printing them alone was well over £1,000. The volumes are printed in Polish, German, Hungarian and Bohemian. He had no stocks of such works in this country, so we had to make zinc photographs of 15 editions which we had and print them from those reproductions. The cases will travel free over the Swedish state railways."

Already similar Testaments and Gospel portions, printed in English, Russian, French and Armenian, have been distributed among the prisoners of the central powers, to the number of well over 400,000, and fresh supplies are still being sent.

"In addition to this," added the secretary, "over 2,000,000 volumes have been distributed, the greater part free, among the wounded in all the hospitals at home and abroad, and among the troops at all points. They have gone to practically every center, to the western front, to Gallipoli, Malta, Egypt, Cyprus and the Persian gulf."

ELEPHANT GIVES FIRE ALARM

Baby Pachyderm's Grunts Save Large Menagerie From Flames Only Just in Time.

Credit should be forthcoming to Little Nemo. She, "the world's smallest elephant," at last has gained a legitimate story.

The J. H. Eschman World United Shows winters in a couple of vacant lots at Guinotte avenue and Salisbury street, Kansas City, in the East bottoms. There are ten cars. A spreading barn protects the animals.

The barnkeeper and assistants were playing rium in the private car of Mr. Eschman. They heard big grunts from Little Nemo. They rushed out. The interior of the barn was blazing. The elephant had kicked over a gasoline stove in the straw. "Cap" Watkins rushed in. Little Nemo was fast losing her senses in the smoke. It was dark and the "Cap" groped about, untied Nemo's halter and shouted, "Come, Nemo!" Nemo came.

In the meantime someone had called the fire department. Before it arrived other assistants had removed the South American llama and the wagon of screaming monkeys from the barn.

Activities of Women.

The maximum wages paid female stenographers in Ireland is three dollars per week.

Women munition workers in England are forbidden from wearing metal buttons on their blouses or metal hairpins in their hair.

The county courthouse in Kansas City, Kan., has a room equipped with mirrors, powder puffs, etc., for the use of women jurors.

The young widows of the most exclusive set in Los Angeles have organized a Merry Widows' club which has as its object the "pursuit of happiness."

Shree King George was incapacitated by his accident from his duties of state. Queen Mary has proved a wonderful assistant and a woman of exceptional discrimination.

Mrs. Mary Moore is Philadelphia's first woman rural mail carrier. As the government does not appoint women mail carriers, Mrs. Moore got a man appointed to the route, which she drives as a substitute carrier, the government not objecting to permitting women to carry mails as substitutes.

PRINCESS TO-DAY

Paramount presents the enchanting little actress, MARGUERITE CLARK in

"STILL WATERS"

A thrilling drama of Circus life featuring some of the greatest actors in the world. Miss Clark is supported by HARRY LA PEARL, the greatest clown at the New York Hippodrome. This is a picture that both young or old will be delighted with. Admission 5c and 10c.

Marguerite Clark Stars In The "Still Waters."

Though there have been many songs extolling life on the ocean wave, and innumerable plays that picture the deeds and misdeeds of the socially elect, life on our inland waterways has seldom aroused the interest of the playwright. As in "Still Waters," the story of canal-boat life and of the circus, in which Marguerite Clark is featured by the Famous Players Film company at the Princess to-day.

A company of players spent three weeks on the banks of one of our great canals in order to get the scenes

which show little Nesta (Marguerite Clark) and which is their home. An entire circus was leased for the purpose of getting the action which transpires in and around the tent, when the ring-master, having marked Nesta for his prey, attempts to force his attentions upon her.

In the support of the diminutive star, there appear, beside Harry La Pearl, Robert Brederick, Robert Vaughn, Arthur Evers and other well-known stage and screen favorites.

RAIDS MADE ON BRITAIN

Essex and Kent Visited by Airships Tuesday—Cruisers Shell Lowestoft.

London, April 26.—Hostile airships raided the counties of Essex and Kent Tuesday night, according to an official statement. The number of raiders is uncertain. The communication adds, "but they did not exceed four. The raiders were met by a brisk anti-aircraft gunfire and retreated after achieving little or nothing."

London, April 25.—The following official announcement was made on the naval raid this morning:

"At about 4:30 o'clock this morning the German cruiser squadron, accompanied by light cruisers and destroyers, appeared off Lowestoft. The local naval forces engaged it and in about twenty minutes it returned to Germany, chased by our light cruisers and destroyers."

"On shore two men, one woman and a child were killed. The material damage seems to have been insignificant, so far as is known at present. Two British light cruisers and a destroyer were hit, but none was sunk."

On previous occasions attacks have been made on the English coast during the war by German warships. The most important raid was made Dec. 16, 1914. The towns of Scarborough, Whitby and Hartlepool, about 150 miles north of Lowestoft, were bombarded and 130 persons were killed. Aided by fog the German vessels escaped.

On Jan. 24, 1915, a further attempt of the kind was made but the German squadron was met off Doggerbank by the British battle cruiser squadron under Vice-Admiral Sir David Beatty. On being sighted the Germans made for home at high speed. Their rear ship, the Bluecher, was sunk and two other cruisers were set on fire and damaged severely. The British flagship Lion was disabled by a shot in one of her feed tanks and was towed home.

The first German naval raid on the British coast was made on Nov. 3, 1914. Three battle cruisers, the Seydlitz, Moltke and Von Der Tann, the armored cruisers Bluecher and Yorick and the protected cruisers Kolberg, Graudense and Strassburg, left port on the evening of Nov. 2 and at dawn appeared off Yarmouth.

They bombarded Yarmouth and Lowestoft for about 20 minutes and then returned. A British submarine—the D-5, attempted to pursue the Germans, but struck a mine and sank. The Yorick also struck a mine and went down with 300 men.

The raid on Hartlepool, Scarborough and Whitby was the most important of these ventures. The German cruisers poured a hail of shells into the towns for an hour and a half and in addition to the large number killed, 200 or more persons were wounded. News of the raid produced the greatest excitement in England where it was thought for a time that an attempt at an invasion of the country might be under way.

Lowestoft, now raided for the second time by warships, is the most easterly town in England, an important fishing station and a fashionable seashore resort. Its population is about 30,000. This town has been attacked on several occasions by German aircraft.

How to Converse With Authors.

I have learned, says a writer in the Atlantic Monthly, that in conversations with authors there should be long pauses. This is because every remark, after being received by the ear, must be submitted to a strict brain analysis, and then given a soul bath before it is proper to venture a reply. I have found, also, that in answering too quickly I myself lose caste. I now make it a point never to respond to a question addressed to me by an author until I have counted twenty. If the author is very distinguished, I make it fifty for good measure.

Romance Eclipsed.

How a sausage balloon—captive over trenches for purposes of observation—was cut adrift by a shell striking its cable, has been told in the cablegrams. A letter to the Associated Press by a correspondent in France gives the personal narrative of the officer whose miraculous escape was mentioned briefly in the cabled news:

"The first intimation that something had gone wrong was when I felt a slight shock. I thought the telephone cable had parted. All at once I became aware that the other balloons were growing smaller, and I grasped the fact that I was adrift. A glance at my barometer told me I was already 5,000 feet up. I tried to pull the cord working the hydrogen automatic control, but it had become jammed and refused to work. I tried to climb to it, but failed."

"Then I feared I was lost. My first thought was to destroy my papers, then I thought of blowing out my brains to avoid falling into the hands of the Germans. Then, however, came an inspiration. Why not try the parachute? I had to be quick, for I was 11,000 feet up. The cord which was tied around my body was sixty-five feet long, so I had to jump that distance into the void before the box containing the parachute could open and set it free."

"For a few seconds I held on to the car by my hands. Then I let go. I must have dropped more than a hundred feet before the parachute unfurled and it was not an agreeable sensation. But after that I did not mind. I was able to look about me and felt the sensation of complete security. When I was about 2,500 feet from the ground I began to see that the wind was carrying me towards the German lines. Then I seemed to lose consciousness. When I finally landed I was only 300 yards from the German line. I had been twenty minutes falling."

The officer refused to allow his name to be published. "It would be too much of a shock to my mother," he explained, "for she fancies that I am in a safe billet."

In old-fashioned war the risk of death was as imminent, and the gallantry displayed as great, as in Twentieth century warfare, but in its spectacular aspects modern war eclipses previous warfare and the miraculous escapes of its heroes overshadow romance.

Facts About Easter.

Easter is always the first Sunday after the first full moon after the 20th of March.

The day for the observance of Easter in England was fixed by St. Austin in 597 A. D.

Easter Island was so-called because it was discovered by Roggeveen on Easter day, 1772.

The latest Easter in this country will occur in the year 1943, on the 25th of April.

The festival of Easter is now observed by the Greek, Roman, Anglican and Lutheran communions.

Only once during the last century, in 1818, did Easter fall on March 22, the earliest possible date.

It was a long belief in Ireland and in certain parts of England that the sun actually danced on Easter day.

The earliest date for Easter is March 22, but it will not occur on this date during any year of the twentieth century.

The use of eggs in connection with the celebration of Easter is of the highest antiquity, the egg having been considered in mythology as a symbol of resurrection.

In the northern counties of England the men parade the streets on Easter Sunday, and claim the privilege of lifting every woman three times from the ground, receiving in payment a kiss or a silver shilling.

It was debated, at the time of the introduction of the Georgian calendar, whether Easter should continue to be a movable feast or whether a fixed Sunday after the 21st of March should not be adopted.

Draining "Big Pond."

Trenton, Ky., April 26.—The new owner of the famous "Big Pond," Howard Smith, of Huntington, Ind., located six miles south of this city, has just begun the drainage of the pond. There are over 200 acres in the pond, and for years it has been the mecca of sportsmen for fish and wild ducks. Mr. Smith is using a dredge boat, and is conveying the water through a ditch 6 feet deep and 12 feet wide to Spring creek, three miles away, thence finally to the Mississippi river. When the land is dry the owner proposes to plant it in corn, to be known in future years as the corn belt of Todd county.

Head Stopped Up? Can't Breathe? Try the Vick Vap-O-Rub Treatment

Applied in Salve Form Over Throat and Chest Relieves by Inhalation and Absorption.

Vapor treatments are best for inflammations of the air passages. The vapors carry the medication direct to the inflamed surfaces without disturbing the stomach, as internal medicines will do. A very convenient vapor treatment is a good application of Vick's "Vap-O-Rub" Salve over the throat and chest, covered with a warm flannel cloth. The body heat releases vapors that are inhaled with every breath, opening the air passages, loosening the phlegm, and healing the raw surfaces.

For deep chest colds, first apply hot wet towels to open the pores. Vick's is then absorbed through the skin, taking out that tightness and soreness. 25c, 50c, or \$1.00.

A Judicial Pastor.

Declaring he would not be pastor of a "paper church," the Rev. Dr. Joseph W. Kemp announced at a meeting of the Calvary Baptist church in New York that he had stricken from the membership roll 1,331 names out of a total of about 2,300. He had taken this action, he said, because the members dropped were not sufficiently active in the church and did not attend regularly. Dr. Kemp asserted that to keep on the rolls as members persons who were not interested in the church was "ecclesiastical hypocrisy." Dr. Kemp recently came from Scotland to Calvary church, one of the oldest and most prominent in the city of the Baptist faith. The good brother should read the passage in the Scriptures that says "Judge not lest ye be judged."

No Wonder.

The sentimental bride at a fashionable seaside resort watched the sun set in rapturous silence. Then she murmured: "See, George, darling, how phosphorescent!" "It's no wonder," responded the matter-of-fact bridegroom, "when you think how many matches are made in this place."

Emma Goldman.

In a police court in New York the other day, Emma Goldman, who a few years ago was almost an international character, was fined and sent to the work house for fifteen days for disseminating nasty literature on the subject of birth control.

Twenty years ago the country rang with the story of the exploits of this female dynamiter. Possessed of a natural facility of expression and the ability to sway her audiences, the Goldman woman managed to influence a large number of people. The number of people who openly professed their adherence to the principles of anarchy because of her teachings was incredibly large.—Henderson Gleason.

HOW LONG YOU WILL LIVE

Statistics From Ten States Bear Out Novel Theory.

Washington, April 26.—"A married man doesn't live longer than a bachelor; it just seems longer," is the trite and untrue statement that is not borne out by the Census Bureau. It is a fact, however, according to the Division of Vital Statistics, that women live longer than men.

Director Rogers, of the Census, is soon to issue a novel set of tables, the first of the kind which have ever been prepared by the United States Government. These tables, which were compiled under the supervision of Prof. James W. Glover of the University of Michigan, show death rates and expectation of life at all ages for the population of the six New England States, New York, New Jersey, Indiana, Michigan and the District of Columbia (the original death-registration States), on the basis of the population of 1910 and the mortality for the three years, 1909, 1910 and 1911. They are similar to the "life tables" prepared by life insurance companies, but differ from them in that they relate to the entire population of the area covered, whereas the life insurance tables relate only to risks selected through medical examination and otherwise.

Expectation of life, at birth, in a stationary population—that is, one in which the births and deaths were equal and were the same from year to year, and in which there was no immigration or emigration—would be the same as average age at death, which is calculated by totaling the ages of all deceased persons and dividing the result by the number of deceased persons.

According to these tables the average expectation of life, at birth, for males is 49.9 years; for females, 53.2 years; for white males, 50.2 years; for white females, 53.6 years; for native white males, 50.6 years; for native white females, 54.2 years; for negro males, 34.1 years, and for negro females, 37.7 years. Females are thus longer lived by three years, and in the case of the native whites and negroes, more than three and one-half years.

The expectation of life at the age of 1 is considerably greater than at birth, being 56.3 years for native white males and 59.9 for native white females, and reaches its maximum at the age of 2, when it is 57.5 for the former class and 60.1 for the latter. At the age of 12 years the average white male's expectation of life is 50.2 years; at 25 it is 39.4 years; at 40, 28.3 years; at 50, 21.2 years; at 60, 14.6 years; at 70, 9.1 years and at 80, 5.2 years. Similarly at the age of 12 the average native white female's expectation of life is 52.6 years; at 25 it is 41.8 years; at 40, 30.8 years; at 50, 22.8 years; at 60, 15.8 years; at 70, 9.8 years, and at 80, 5.5 years.

W. C. CAMPBELL

PASSES AWAY

Died at 11:30 Tuesday at the Home of His Sister, Mrs. I. P. Gerhart.

Mr. Wm. Cook Campbell, died Tuesday at the home of his sister, Mrs. I. P. Gerhart. Mr. Campbell, who was a prominent real estate man in Okmulgee, Oklahoma, had been in ill health for some time, and two weeks ago came to Clarksville, expecting the change of scenery and climate to restore his health, but he gradually grew weaker until the end came this morning. He was born in Hopkinsville, Ky., on March 4, 1846. He moved to Clarksville when a young man, and for many years was a resident of this place. For several years he was prominent in the dry goods business here and one of Clarksville's most respected citizens. He was the eldest of a large family of children. He had been a member of the Episcopal Church for many years. The funeral was conducted from the residence of Mr. I. P. Gerhart, Wednesday afternoon at 4 o'clock, by Rev. Raimundo de Oves. Interment in the family burial lot in Greenwood cemetery.—Leaf Chronicle.

WAR'S COST PUT

AT \$90,000,000

Total Expenditure Up To August 1 Estimated at \$45,000,000,000.

New York, April 26.—War now is costing the nations of Europe more than \$90,000,000 a day, according to estimates prepared in a booklet to be issued by the Mechanics & Metals National Bank of this city. Of this enormous total the principal burden falls on the Entente Allies. The bank estimates that the cost per hour to England, France and Russia is approximately \$2,500,000 while to the Teutonic empires the cost is in excess of \$1,000,000.

The total cost of the war, if it is still in progress August 1 next will have been \$45,000,000,000. Of this sum Great Britain's share will have been \$11,600,000,000, Germany's a trifle less and France's \$9,250,000,000.

Two years of the war, the booklet states, will cost six times more than the full amount expended in the Civil War; will reach a sum forty times more than the amount of our national debt, and will be 120 times more than the cost of the Panama Canal.

WESTMINSTER REVIVAL STARTS

First Meeting Held Tuesday Night and Two Meetings Daily.

The revival at the Westminster Presbyterian church began Tuesday night. Rev. J. Ernest Thacker and his singer, Jas. W. Jelks, arrived Tuesday. Meetings are held morning and night. Should the attendance justify the move, the Tabernacle will be used when the meeting gets under way.

Dr. Thacker comes recommended as one of the most substantial and successful evangelists of his church, and his work is entirely free from objectionable features of any kind. His appeal is direct and forceful and the results in decisions from his meetings are always large. In the successful campaign in Brooklyn, his district in Rushwick was one of the great successes of the campaign.

With a fine presence and a voice of great clearness and force, he wins at once on his audiences, while his strength of thought and felicity of expression hold their attention to his last utterances.

Unearth Big German Plot.

London, April 25.—As a result of the seizure of German and Austrian subjects aboard the China mail liner China last February while bound from Shanghai for the United States, the Intelligence Department of the British Government claims to have uncovered a plot of immense ramifications conducted with the purpose of causing a revolution in India.

The American headquarters of the plotters is said to be on the Pacific coast. At least one ship is known to have sailed from San Francisco with a German crew and Indian conspirators and arms on board.

TO FIGHT THE TOBACCO WORM

Appropriation For Work in Kentucky Increased \$10,000 By Congress.

Washington, April 26.—A mightier battle against the tobacco worm will be waged in Kentucky next year by experts of the Department of Agriculture as a result of an increase of \$10,000 for investigation, experimentation and demonstration for eradication of the tobacco horn worm provided for by the item in the annual Agricultural Appropriation Bill, adopted to-day by the House.

The increase in the appropriation was put into the bill by Chairman Lever, of the Agriculture Committee, at the instance of Representative R. Y. Thomas, Jr., who appeared before the committee. About \$13,000 was expended for this work last year, that amount being an increase of the previous year's appropriation, for which the Kentuckian was also responsible.

No objection to the increased appropriation was made on the floor of the House to-day when the tobacco item was reached. Representatives Alben W. Barkley and David H. Kincheloe were ready for any opposition, as they were armed with an array of facts to show the need of the larger sum of money.

The additional money will enable experts of the Department of Agriculture to cover a wider area of tobacco-growing sections to demonstrate to the growers the use of a solution of arsenic of lead, which kills the dreaded horn worm without injuring the tobacco leaf or endangering the user of tobacco. For many years growers who have not resorted to the tedious method of picking off by hand the worms, have used paris green, and this was shown to be a menace to the user of chewing tobacco. Many demonstrations in the use of the new solution discovered by the agricultural experts, were given in Kentucky last year, and the additional appropriation obtained by the State's Congressmen from the dark tobacco sections will permit even broader service.

TRIGG COUNTY NEWS.

Cadiz, Ky., April 25, 1916.

Editor Kentuckian:

Thinking a few items of news from Cadiz might interest some of the patrons of your paper, I will report some of the happenings for the past few days.

Easter Sunday was appropriately observed here. Most every one attended the services at the churches.

Miss Nell Wash died Monday morning, after an illness of some time. She was the youngest daughter of Mr. E. E. Wash.

Business is very good with the merchants of the town since J. W. Hancock & Co. have been buying and putting up tobacco here.

Holman & Jackson are still buying and shipping stock to the markets. Broadbent Bros. shipped a lot of hogs from here Saturday. Trigg is gaining a reputation as a stock raising county.

Our old friend, John Williams, of Pembroke, deserves credit for the sale he made here of a lot of thoroughbred hogs last year. It is now showing its good effects in the breeding of hogs in the county.

The latest in politics here is that our townsman, George Prentice Thomas, will be a candidate on the republican ticket for Congress in the First district.

Mr. Mat Holland, of near Rock Castle, Judge John D. Shaw, of Trigg Furnace, T. P. Light, of Canton, Fay Allen, of near Cumberland church and Gordon Mitchell, of Ferguson Springs district were here yesterday.

Payment of a bill due Jerry Hutchinson, who has been dead fifty-three years, has been received at Fairmount W. Va., from a man in Morgantown. The letter is written to M. L. Hutchinson, of the late Jerry Hutchinson, who conducted a general store, Mrs. E. W. Arnett and C. F. Hutchinson are also surviving children. The letter follows:

"Dear sir: I owe the heirs of the late Jerry Hutchinson \$1.50. Please hand Clyde and your sister their share, 50 cents each."

Deuced Bore.

Latest Illustration of Life at the Union League Club: Three members are in the smoking room. One is reading a novel. Another is smoking a cigarette. The third is ruminantly biting the head of his walking stick. A motor car passes up Fifth avenue. The man with the novel looks up and watches the car until it has disappeared. Then he remarks: "Packard," and goes on reading. Ten minutes later the car returns down Fifth avenue. The man with the cigarette watches it until it disappears and then remarks: "Lozier," and goes on smoking. The man with the walking stick rises. "My word!" he says. "I shall resign from the club. I hate these arguments."—New York correspondence in the Cincinnati Star.

Ocean Eats Away the Land.

Little children who played on the beach last summer would be surprised if they should go back to the same place in a few years to find it quite changed. Old Ocean is not satisfied with the shore as it is, and he keeps pounding at it all the year round, but hardest in the winter. Down near Baltimore the ocean sometimes comes 30 feet farther up in a year. At Rockaway Beach, Long Island, the coast line has moved back a mile in 20 years. At a certain place on the Atlantic City beach the ocean took 76 acres away from one owner and put 56 acres on another man's shore land, all in ten years. Orchards and even forests disappear before the onward marching sand.—From John Martin's Book.

With Shell Accompaniment.

This extract is taken from a letter from a private in an English regiment at the front: "I woke up this morning with 'The Tales of Hoffmann' coming from outside—one of our chaps has stuck to his violin, though heaven knows how. There he was standing in the open, playing as coolly as at home, amid the shriek of shells overhead."

The largest meteorite known to have fallen to earth weighed 437 lbs.

WAR! What Is It? All About?

HAS the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armor glistering just because Russia wanted to show her love for the little brother—Serbia? Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate, excuse the sacred lives of millions are being sacrificed. OFFICER WASTED FEW WORDS

Conveyed Injunction Briefly, but Left Hearers With a Small Matter to Ponder Over.

Though the czar packed him away to the Caucasus and put others in his place at the head of the Russian armies sent to stem the tide of German invasion, Paris still cherishes its admiration of the tall, grim Grand Duke Nicholas Nicholasievitch, sometime generalissimo of the armies of Muscovy. And it is in Paris that they still tell this story: One evening, when his forces lay near the Polish frontier, the grand duke gave orders that all the persons engaged in purveying supplies to the soldiers should be assembled at nine o'clock alongside the track where the grand ducal train was stabled for the night. "I have a highly important communication to make to the individuals in question," Nicholas explained.

Promptly at the hour named the invited guests were on hand and stood in line respectfully waiting. They did not wait long. In not above a minute the grand duke stepped out of his car, facing the trades persons, and looked them over for several minutes in silence. Then he spoke:

"Gentlemen, what I have to say to you is very serious for you, and is comprised in exactly three words. Do not steal—or I'll hang every mother's son of you."

With that he turned on his heel and re-entered his car. The audience was at an end.

At Becket's Shrine.

The northern transept of Canterbury (Eng.) cathedral marks the spot of Becket's assassination, and for this reason is called "the Martyrdom." The choir stalls are inclosed with a beautiful screen of carved stone, executed by Prior d'Estria, and is one of the famous treasures of Canterbury. The archbishop's throne, with its canopy, commands your attention for a short time, and then you pass up the north aisle. In the adjoining chapels and about you are the tombs of the archbishops who were virtually the prime ministers of England for many reigns. The stones are worn by the feet of the pilgrims who visited the shrine of Becket.

Soldiers' Pay Withheld.

In the prolonged campaigns of former times British soldiers often received no pay for years, and considered themselves lucky if they then obtained a small part of what was due them. In one of his dispatches, May 21, 1703, Marlborough complains of the great hardships suffered by a certain regiment, to whom \$27,500 was due, and pointed out that it would "much contribute to the service if some part of it were paid to enable the colonel the better to clothe his regiment and the officers to support themselves in the army."

GIRLS, CULTIVATE A SMILE

Pleasant Expression Will Bring Young Women From Ranks of Plainness to Heights of Beauty.

Cultivate your smiles unceasingly, girls. This does not mean that you must sit in street cars wearing an insipid grin. Not at all! It does not even mean that you must actually smile in the literal sense of the word. But your expression can be smiling without your lips being parted at all. If you are thinking about pleasant occurrences your mouth will turn up at the corners and your eyes will sparkle, quite naturally and without any effort.

This will keep your face attractive and youthful, even when you have passed the borders of youth itself. If you wish to retain your beauty as long as possible, don't form the habit of letting your lips droop and all your face muscles sag downward when your face is in repose.

Just stand before the mirror and pull your lines down to get the effect. Draw your mouth down and scowl a bit and you will see just how ugly those drooping lines can make you look. Then smile, not artificially but naturally, just a little around the lips, but a great deal in the eyes, and you will see how pretty you can appear.

If every woman realized how much harm she is doing to herself when she sits with her face muscles all relaxed and drooping she would try the smile cure for ugly lines. The smile can bring about magical results in lifting a girl from the ranks of plainness to the heights of actual beauty.

HAPPIEST MAN MOST HONEST

He Has No Bad Habits and So He Is Always Prosperous—He Works for Good Living.

We have noticed the happiest man many a time. He works for his living and he gets a good one. One thing we notice is he is a man of fine habits; doesn't squander a cent on liquor, tobacco or betting. He saves his money and is getting ready to buy some property. He loves his home, plays with the children, reads good books and keeps company with his wife. Because of his good habits he saves a little, which will give him a chance to make an investment.

And then there is another thing—he is a reliable man. He does good work. He will not smooth over bad work. He is honest in whatever he does. Every dollar he gets represents just that much of honest labor. It is this, largely, that makes him prosperous and happy.

Water keeps its own level, and so does conduct and character and prosperity. If a man is mean and low, so will the consequences be. He cannot be one thing and his experience another. A low-lived man may grow rich and happy, but it will not be for long. Anybody can tell what's the matter with a man if he is with him a day; he will soon see if the other is a spleen, a stomach, an uplift or a hope.—Ohio State Journal

MATTER OF SENTIMENT.

"What makes you go in through the kitchen?"

"I don't know our servants very well," replied Mr. Cumrox. "Some way, the front hall seems kind of informal and distant. Around at the kitchen steps they've got an old doormat with 'Welcome' on it."

SAVED HIM THE TROUBLE.

Tom—How did you manage to break the ice with Miss Chillington?
Jack—I didn't break it. I accidentally found her in a melting mood.

THEIR HOLD.

"I wonder why songs of the sea are generally popular."
"I suppose it is on account of the whistling buoys."

UNPROFICIENT.

"I suppose you play golf?"
"No," replied Mr. Cumrox. "I can't say that I play it. But I am still working at it."

PARADOXICAL FEARS.

"Naturally, there is a lot of log rolling about presidential timber."
"Yes, but it never wants to feel the ax."

APPROPRIATE ACTION.

"James made a big leap for the medicine on the shelf."
"No wonder; he's got a jumping toothache."

The man with money should let those get-rich-quick "snaps" alone.

When you have worked hard for your money, don't let some "oily-tongued" stranger, who never did an honest day's work in his life, come along and "talk you in" on some FOOL SCHEME into which you will sink all the hard-earned savings of a lifetime.

You cannot "get rich quick" from the efforts of others. But you can get rich quicker than you think if you will begin banking your money TODAY and firmly resolve to INCREASE the balance to your credit every month. Try it.

CATCHES MONEY BY PHONE

When Bill Blows Out of Window Hotel Guest's Quick Wit and Action Saves It.

The quick wit of a guest in the Bellevue-Stratford saved him a good-sized banknote, a Philadelphia dispatch to the New York Sun says. In his room on the thirteenth floor, Broad street front, he was handling some money near an open window. A sudden gust of air lifted one of the bills and sent it through the window opening.

Without waiting to see what would become of it he sprang to the telephone and told the house operator what had happened. In a twinkling she divined the remedy and called James Dinsmore at the baggage desk, which is located just inside the main Broad street door. He took in the situation immediately, though he afterward admitted he never had met quite a similar state of affairs, and inside of two seconds he was telling Mike Quinn, a porter, about the incident.

Mike was just as fast as the operator and the baggage clerk. He dashed out to Broad street and looked up. Sure enough, he saw the bill zigzagging its way down. It was passing the fifth floor, directly over the marquee. It swerved out, however, and fell into his waiting hands.

ROYAL VISIT WORKED WONDER

Wounded Italian Officer Recovered Speech in His Surprise at Seeing King Beside Him.

The king of Italy has been responsible for one of the most extraordinary occurrences of the war. His majesty has been constant in his visits to the wounded soldiers, and one day he arrived quite unexpectedly at a certain field hospital.

Among the patients there was a young lieutenant who had been stricken quite dumb by the bursting of an Austrian shell. The poor fellow was lying in bed feeling very miserable, when, all of a sudden, he glanced up and found the king standing by his side.

In a moment he stared up in amazement at the unexpected honor, and shouted at the top of his voice:

"His majesty the king!" and burst into a flood of tears.

The emotional shock, coming as it did, so unexpectedly, had completely restored his power of speech, and even the king himself was overcome by emotion at this extraordinary miracle.—Exchange.

Doctor Has 30,000 Patients.

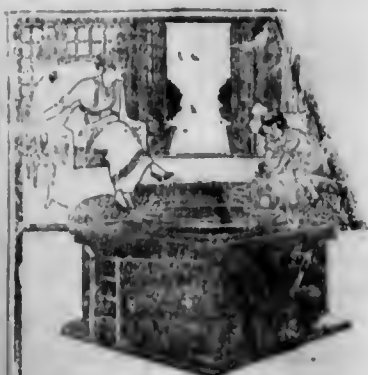

Dr. Wilfred Grenfell, who is in charge of a division of the hospital unit that has been sent to France by Harvard university, has been termed "the doctor with the biggest practice in the world," says the London Globe.

The phrase is accurate enough, for his work as missionary among the fishermen in the northwest Atlantic has made him responsible for the physical as well as the spiritual welfare of some 30,000 men. As a medical superintendent of the Mission to Deep Sea Fishermen "Grenfell of Labrador" has in fact been preacher, missionary, physician and surgeon combined, and on one occasion he acted as judge.

He has worked 20 years in the North sea and Labrador, founded four hospitals, an orphanage, a co-operative institute and effected a real and beneficent transformation in the life of his deep-sea fishermen.

POST OFFICE WITHOUT A DOOR

Architect's Peculiar Omission in Dublin's Public Building Is to Be Rectified.

The General Post Office building in Dublin, writes an Irish correspondent, according to the Manchester Guardian, has long been a standing joke with the foreigner who has visited Ireland. It dates from 1820, and is an admirable piece of architecture, with its magnificent pillars that give out on the main thoroughfare of the city. Only, Francis Johnson, the Irish architect, forgot one thing. He forgot to add a door to the doorway or portico of the building. Descriptions of this splendid but ever-closed house, known to the natives as a post office, have gone all over Europe during the last hundred years.

Familiarity breeds indifference (continues our correspondent), says the Guardian, and the curiosity of the thing seems to have struck very few of our own Dublin people. Besides, we knew, in fact, that it was possible to find a way into the place. We took, as a matter of course, the dark and devious approach of back streets to the side entrance through which one passed in single file. It was only a few days ago that we realized the situation. Workmen had been busy for some time at the front of the building, and now it has become evident that Johnson's omission is to be remedied. The door, which historians will say it took a hundred years to make, gradually appears on Sackville street.

SWAMP SOLDIERING

Sham Battle Bill—Lieutenant, the enemy is upon us.

Lazy Lieutenant—Yes, I know; they've been biting me all night. Why hasn't our medical staff got the mosquito nets into action?

PRESERVE THE BIRDS.

Col. G. O. Shields of New York, president of the League of American Sportsmen, places the annual cost to farmers in this country because of the destruction of birds at \$1,000,000,000. "There are 10,000,000 shotguns in use," he said "and that number is being increased 500,000 every year. There are 900,000,000 shotgun cartridges being made and burned each year in an effort to get the remaining birds.

"The cotton growers are losing \$100,000,000 a year because of the ravages of the boll weevil. Quails, prairie chickens, meadow larks and other birds that have been almost exterminated used to destroy these insects. Grain growers are losing a like amount because of the chinch bug. The Hessian fly is costing them \$200,000,000 more."

DOUBTFUL.

"What a spare figure that man has!"
"I don't see that he has much to spare."

PARADOXICAL PROOF.

"Great Scott, but that Smith girl is dumb!"
"How do you know?"
"I heard her talk."

THE CAUSE.

"I hear there is a mad-dog scare in that town."
"No wonder; they've been trying out problem plays there."

NATURALLY SO.

"What a lame apology that man made about his mistake."
"Of course it was. Why, his story hadn't a leg to stand upon."

QUITE THE CONTRARY.

"I hear all the prisoners broke out who were in jail last week."
"What! A general jail delivery?"
"Oh, no. An epidemic of measles."

MARKERS TO BE PLACED JUNE 1

Judge D. W. Rider Urges Counties To Do Work On Day Set Aside For It.

In his appeal to residents along the Dixie Highway to devote June 1 to marking the road between Louisville and Nashville and to make that day a holiday, Judge D. W. Rider, of Elizabethtown, president of the division, says:

"Our Dixie highway is too great an enterprise to be treated lightly by anyone, and I trust that everyone will feel it is his or her duty to assist us in this matter."

A general automobile parade is planned, and it is hoped that on the evening of June 1 the entire division will have been marked.

Fell Out of Bed.

Gov. James B. McCreary is fond of relating a story of his experience with the late Justice John M. Harlan, who was his Republican opponent for Governor in his first race for the governorship in 1875.

The two candidates, who were warm personal friends, made the campaign together, stopping at the same hotel and sleeping in the same bed. On one occasion, as related by Gov. McCreary, he and Mr. Harlan had retired for the night when the latter remarked:

"Well, the next Governor of Kentucky is in this bed."

But before he had finished the sentence the bed broke down and Mr. Harlan rolled out on the floor, whereupon his rival ventured the rejoinder:

"Yes, the next Governor of Kentucky is in this bed." Times

Nebraska Jolts W. J.

Pacifism is evidently unpopular in Nebraska. The world's two greatest pacifists were voted on in the primaries last Tuesday. Though the returns are still far from complete, it seems likely that both William Jennings Bryan and Henry Ford have been given the hook by the plain people of the Platte.

Mr. Bryan was a candidate for delegate at large to the St. Louis convention. In a field of seven from which four are to chosen he is running sixth. Nebraska decrees that Mr. Bryan must attend the St. Louis gathering as a newspaper correspondent.

It was a bad day for the Bryan family and influence in Nebraska. Brother Charlie has been defeated for the gubernatorial nomination and Senator Hitchcock, opposed by the Bryan brothers, is renominated for the senate.

Henry Ford fared a little better than Mr. Bryan. His superior running powers may be due—but that is a joke censored in all well conducted newspaper offices. In the early returns he seemed to have carried the state, but later results though incomplete indicate that Cummins will have the delegates.

In Montana a notable tribute was paid Wilson. Though unopposed he got more votes than all the republican candidates combined.—Evansville Courier.

Egg With a Tail.

Mr. L. H. McKee brought to the Kentuckian office yesterday an egg with a long cord-like attachment to the large end. The appendage, which seemed to be of the same material as the skin inside of the egg, was six inches long when first discovered, but has since dried out and become shorter. The egg is otherwise of normal size, but the shell is very thin.

PISTOL BATTLE IN CITY STREET

One Killed And Two Fatally Wounded In Duel With Bandits.

Cincinnati, April 26.—In a desperate pistol duel on Central avenue, in the heart of Cincinnati's business district, at noon Tuesday Patrolman Samuel Robbins was shot and killed, a pawnbroker named Louis Katz was probably fatally shot, while an unidentified man, accused by the police of doing the shooting, was in turn shot and probably fatally wounded by Detective Albert Wegener.

The police assert that Katz was shot when the unidentified man attempted to hold up the pawnbroker in his shop, that the man opened fire when Robbins hurried to Katz's assistance when the latter called for help and that Wegener, seeing his fellow officer fall, immediately shot the man.

WOMAN 25 YEARS OLD HAS 7 CHILDREN

(Maryville, Cal., Dispatch.)

The mother of seven children, all living, at the age of 25, is the record that has been established by Mrs. Frank L. Mini, wife of a prosperous Swiss-American farmer living a few miles northeast of this city. The youngest member of the family, Filomena, a girl, was born January 17, just a year and seventeen days after the stork visited the family and delivered a boy. Mrs. Mini is a native of Spain. There are no twins, triplets or quadruplets, and all the children are just as healthy youngsters as can be found in the district.

Repairing Hickman Building.

The Hickman building on Virginia street, occupied by E. H. Hester and others, is undergoing repairs. It was partially destroyed by fire several weeks ago and the front wall so weakened that it will have to be taken down and rebuilt. The street has been roped off and the brick work will be done without unroofing the building. The Daltons have the contract.

Wife's Pitchfork Saved Him.

Jefferson City, April 24.—A jack attacked M. F. Overstreet, of Jefferson City, a stockman. It bit off Overstreet's fingers and lacerated his left arm from wrist to shoulder. The arm will be amputated.

Overstreet's wife saved his life by plunging a pitchfork into the jack's side.
